

ASA Computers Inc.
Integration and Service with Pride

What We Offer

Rackmount Servers

Servers designed for optimal performance, processor Server series support eight core/six core/quad-core/dual-core processors in a high-density. With best-in-class memory architecture, hot-swappable SAS/SCSI/SATA drives, universal expansion slots, ideal for network infrastructure, front-end enterprise, and minimal-downtime cluster server systems.

Storage Servers

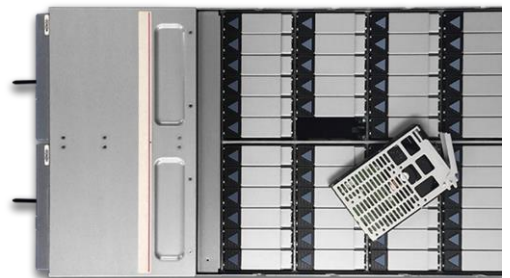

Providing the standards, you want with the technological innovations you need for rapid integration, flexibility, and simplified management. Built with industry-leading business platforms, our servers allow quick & easy scaling for future storage expansion. Servers ideal for performance, high availability, scalability, minimized down time, max storage, redundancy & failover capabilities, & rapid data recovery.

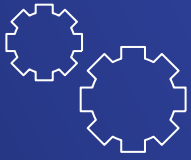

About

ASA Computers Inc. has been the leader in server products, computing and networking since 1989. We pride ourselves in providing superior server design at competitive costs. ASA Computers Inc. has met these challenges with ingenuity and clever solutions to reduce costs, decreased time-to-market, and deliver consistent quality.

ASA Computers offers a wide variety of engineering capabilities and has delivered products for the Datacenter industry that include rack mounted servers, fully rack integrated large systems and industrial computing systems.

We hope to assist your business with its technology needs today!

DATA CENTER EXPERTISE

ASA Computer's deep application-level expertise spans all major IPDC segments, including Computational Structural Mechanics, Computational Fluid Dynamics, Electromagnetic Compatibility, Computational Chemistry, Computational Biology, Seismic Processing and Interpretation, Reservoir Simulation, Rendering & Ray Tracing, Climate/Weather/Ocean Simulation and Data Analytics.

Our Best-Selling Products

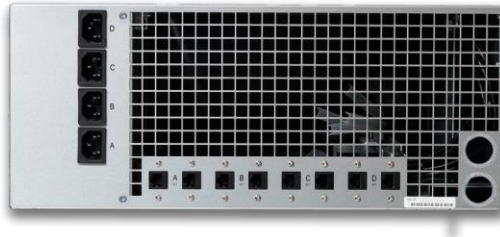

1U Rackmount Server | SKU: **ASA-1101-X2-R**

- Dual socket R3 (LGA 2011) supports Intel® Xeon® processor E5-2600 v3/v4 family; QPI up to 9.6GT/s
- Up to 1TB ECC DDR4 2133MHz; 16x DIMM slots
- 2x PCI-E 3.0 x16 (FHHL), 1x PCI-E 3.0 x8 Mezzanine for HBA cards
- 10x Hot-swap 2.5" SAS/SATA HDD bays
- Intel® i350 Dual port GbE LAN
- I/O ports: 2x SuperDOM, 1x VGA, 1x COM, 6x USB 3.0 (4 rear, 2 front)
- 2x SuperDOM (Disk on Module) ports
- 700W Redundant Power Supplies Platinum Level High-efficiency

2U Rackmount Server | SKU: **ASA-2101-X2**

- Dual socket R3 (LGA 2011) supports Intel® Xeon® processor E5-2600 v3/v4 family; QPI up to 9.6GT/s
- Up to 1TB ECC DDR4 2133MHz; 16x DIMM slots
- 4x PCI-E 3.0 x16 slots (GPU/MIC, opt.), 1x PCI-E 3.0 x8 (in x16) low-profile slot 10x Hot-swap 2.5" SAS/SATA HDD bays
- Intel® i350 Dual port GbE LAN
- 10x Hot-swap 2.5" SATA Drive Bays
- 2000W Redundant Power Supplies Platinum Level (94%+)
- 5x heavy duty cooling fans
- Smart server management tools

Virtualization Servers

These servers are designed for optimal performance, processor Server series support eight core/six core/quad-core/dual-core processors in a high-density. With best-in-class memory architecture, hot-swappable SAS/SCSI/SATA drives, universal expansion slots, ideal for network infrastructure, front-end enterprise, and minimal-downtime cluster server systems.

Custom Solutions

ASA offers a fully customized rack, stack and cabling service integrated in custom enclosures. This results in a complete turn-key deployment for customers. ASA offers field deployment services, custom consulting, assessment and file management services offerings. Customer education and managed services are also available to simplify the administrator burden.

" Racklive, a division of ASA Computers, designed custom racks that enabled their customer to stick 44 cylindrical Apple Mac Pro workstations "

Racklive is our full system division, in which we do Rack, Stack and Cable, crate and ship full system, roll in to data center and do the field deploy. Our team can assist in implementing a fully configured rack server for your business with ease.
